1 Introduction

Composition is a 2-year MMus programme at the Royal Academy of Music where students work with composition and/or songwriting in an artistic and reflective manner. Taking the student's compositions as a starting point, the programme includes a broad range of subjects and projects that form the basis for the student's choices in relation to an active future career.

The programme focuses on the student's composition skills and artistic expression. The student takes one of the following main study areas as his/her starting point:

- Songwriting composition
- Songwriting
- Jazz/pop composition
- Classical composition

Joint electives, project weeks, and seminars for all composition programmes provide opportunities for collaboration across main study areas. The programme is concluded with a Master's project where the student specialises in a particular subject. Applications must be made for each main study area separately.

The programme subjects are divided into the following fields:

- Main study area: subjects where the student works in an investigative, creative, and methodical manner as well as subject immersion that supports this aspect
- Electives: subjects where the student can work with e.g. artistic communication, technical ability, and/or pedagogical practice
- Artistic entrepreneurship: subjects and projects where the student gains experience as an entrepreneur and manager of dynamic processes and acquires career management tools, based on his/her artistic practice
- Master's project: specialisation including guidance and immersion in a subject chosen by the student

The elements of the programme are credited with ECTS points based on an assessment of the workload involved in the subjects.

The first year is concluded with an individual presentation from each student followed by peer evaluation. The presentation is part of tuition and is not an examination.

The student hands in 10-25 minutes of music created on the first year and a written reflection assignment. Works can be handed in as scores and/or audio files.

The scope of the written assignment must be 3-5 pages excluding annexes (lyrics, scores, descriptions, etc.). If one or more works were written with others (co-writing), each student accounts for his/her part of the work.

Sound files must be in .mp3 or .aac format.

Video materials (if any) must be handed in as active links.
