

Admission requirements for NOMAZZ – Nordic Master in Jazz 2024

Parts of the entry audition will take place online via Zoom; other parts consist of uploaded material provided by the applicant and evaluated by the examiners.

As part of the application at studieoptag.dk, you have provided a max 10-minute recording of yourselves playing your main instrument as part of a band/ensemble.

The examiners will listen to these files before the entry audition.

The entry audition consists of the following and will be conducted via Zoom:

- Mandatory tests in improvisation, listening and sight reading. The sheets for sight reading will be shared on the applicant's screen. The backing tracks for improvisation and listening will be sent to the applicant's e-mail just before the exam. Duration: 15 minutes.
- An interview. Questions will focus on your interests and motivation for attending the programme. Duration: 15 minutes.
- An evaluation by the examiners. Duration: 15 minutes.

Before the entry exams there will be a technical rehearsal for each of you, assisted by one of the examiners (see schedule). This is to make sure there will be no technical obstacles on the day of the exam.

Evaluation criteria

The evaluation will reflect the applicant's possibility to reach the objectives of the education in question.
